LES Presidential Summary - 5 November 1992

Following is a summary of what we know at this point about Marrou/Lord results. Information from many states is still unavailable, and the numbers for some states are for only part of the state, but the percentages seem generally in line with the three-tenths of one percent computed from the AP totals (included at the top for comparison). That implies a total vote for Marrou/Lord of about 300,000. Best state results for Marrou/Lord seem to be approximately 0.6%, but that could change as we get details from more states.
