

that no child should be subjected to any judicial procedure unless charged with a specific crime;

That children be permitted a jury trial in all cases in which adults **would** be extended this right;

That the same right to "reasonable bail" be accorded to minors as to adults;

That, like adults, children accused of criminal offenses, should be presumed innocent until proven guilty; and

That there should exist no category of crimes applicable to children, for which adults would not be similarly answerable.

Public Financing of Political Crimes

Be it resolved that the Free Libertarian Party of New York send a telegram to the President of the United States advocating his veto of the bill supporting public financing of political campaigns.

Impeachment

Resolved that the Free Libertarian Party demands that the Judiciary Committee of the U.S. House of Representatives present a Bill of Particulars to the House and ~~the~~ House present an impeachment to the Senate and that the Special Prosecutor prefer the proper charges against the President.

Legal Tender Laws and the Federal Reserve System

Resolved, the Free Libertarian Party opposes all legal tender laws and calls for the abolition of the Federal Reserve System.

Fair Trade Laws

The **existence** of so-called "Fair Trade" laws being an obstruction to competition in the marketplace and a cause of higher prices the Free Libertarian Party calls for the immediate repeal of such laws.

Flouridation

The flouridation of the water supply being of debatable medical safety and being involuntary mass medication of the population by government, the Free Libertarian Party opposes all such flouridation, present and proposed.

#

Condemnation Laws

Whereas, Private property rights are necessary to a free society; Whereas, Condemnation Laws violate private property rights; Whereas Condemnation Laws make possible manipulation of property for political purposes; Whereas, the expenses of condemnation laws are a burden to the taxpayers; Resolved, That the Free Libertarian Party of New York State recommend to the New York State Senate and Assembly the repeal and abolishment of all Condemnation Laws employed in New York State, along with those Condemnation Powers delegated by New York State to its counties, towns and those agencies so empowered.

Non-Voluntary Commitment

We oppose the non-voluntary commitment of any person to a mental institution. The power of the State of New York to incarcerate an individual who is not convicted of a crime, but merely asserted by the authorities to be incompetent, is a violation of the individual's rights.

We further advocate:

- a. The repeal of all laws permitting non-voluntary psychiatric treatment.
- b. The immediate discontinuation of all programs using tax monies for observational study or experimentation.
- c. An end to all non-voluntary treatments of prisoners in such areas as psycho-surgery, drug therapy, and aversion therapy.

Censorship

Each individual has the inalienable right to choose what to see, read and hear. Thus, the Free Libertarian Party opposes any and all forms of government censorship over motion pictures, the theater, broadcasting and literature.

Rights of Children

Whereas, among the more noxious of the specific violations of individual liberty which presently abound- more noxious, because in such instances, not even the pretenses of "rights" or "due process" is accorded to the individual- are the policies of and practices sanctioned by the State regarding children, the Free Libertarian Party does hereby resolve: That, whereas force is unquestionably an obstacle to learning, compulsory education laws are morally indefensible, and should be immediately repealed; That, for so long as the above mentioned tyranny shall exist, those subjected to it shall be entitled to vote in school board elections; That the requirement that an individual attend some school is made all the more objectionable by the requirement that he or she attend a particular school;

That age, in and of itself, is not a sufficient criterion for determining the rights of an individual to engage in such activities as: being party to a contract, operating a motor vehicle, being employed by another or employing others, marriage or any other sort of personal relationship, renting or owning an apartment or house, patronizing any sort of public facility, and many others too numerous to list;

That the presently existing juvenile "justice" system merits the unqualified condemnation and contempt of all persons having any regard for justice, whatsoever;

That the practice of jailing children accused of no crime must immediately be stopped, and those presently so confined be unconditionally released;
