Notable Quotes

"We threw away something special in this country. It's still the newest, freshest, and perhaps most unique system of governance ever. I think we should go back and reclaim it before we go back to our most ancient default brutality."

- Andrew Horning

ABOUT THE LIBERTARIAN PARTY

The Libertarian Party is America, and Indiana's, third largest political party founded in 1971 as an alternative to the two main political parties. Its vision is for a world in which all individuals can freely exercise the natural right of sole dominion over their own lives, liberty and property by building a political party that elects Libertarians to public office, and moving public policy in a libertarian direction.

The Libertarian Party of Indiana was formed in 1974, and has maintained ballot access since 1994. Sam Goldstein, an Indianapolis resident, currently serves as Chairman.
