# Free Libertarian Party A message they can't ignore

Laws against homosexual behavior, pornography and marijuana violate the rights of New Yorkers.

Outdated sex laws and petty restrictive legislation cost taxpayers millions of dollars to enforce. They divert policemen from their primary function—protecting our safety.

Repeal victimless crime laws. If we get 50,000 votes November 5th, the politicians will listen to us. 50,000 votes is a message they can't ignore.
