LIBERTARIAN PARTY SELECTS STATE DIRECTOR;
OPENS STATE OFFICE IN OAKLAND

The Libertarian Party of California has appointed Don Doig as State Director. Doig was formerly coordinator for the Clark for President campaign in Montana.

Doig will be working out of the new State office for the Libertarian Party of California at 5332 College Avenue, Oakland. He will coordinate several projects designed to strengthen local party organizations, assist Libertarian candidates and work to increase Libertarian Party visibility and credibility.

"The Libertarian Party in California", he said, "is in a strong position following the last election. Local organizations gained tremendously in the degree to which they are able to mobilize volunteers. Our activist numbers increased dramatically and our members gained considerable political organizing experience which will be very useful in the years ahead. We have expanded our fundraising base, our media credibility and our public visibility. We will now begin to consolidate those gains and prepare for the local and state elections in the coming two years."
