When is my hearing and the announcement to the party that this action is happening? You announced a schedule for submitting documents and conducting a hearing for Andrew's appeal within hours of him making it, including establishing a database for information. I'm sure you have consistent procedures for all appeals, right? Right??

And to call an appeal dilatory when ultimately over 2/3 of the convention body agreed with it is, well...interesting.

Thank you for the additional evidence that you have all acted and continue to act in Bad Faith.

Kindest regards,  
Brian Ellison
