**Subject:** suspension of CAH

Dear Dr. Ruwart,

I do not know how to address the judicial committee concerning Caryn Harlos but I wish to share my observations and hope that the committee would take this into consideration.

Ms. Harlos has been a disruptive force on the committee. She has raised a question of scandal where none existed for personal profit. This is unfitting of an officer of any group or organization. I submit this is covered under the 'for cause' portion of the bylaws.

Ms. Harlos would say her suspension was because she questioned things and rooted out corruption. But Starchild, as far as I can remember, was never targeted for discipline of any sort, and he also questioned almost everything and tended to dominate more than his share of the meetings.

There are laws against libel for good reason. People can be destroyed by false or misleading statements. I would consider that aggression. Ms. Harlos has done this many times. I am not sure if the party believes there is such a thing as libel, but if we do, that is also justification for

suspension for cause.

Please consider that real damage has been done for the profit and financial gain of one individual. I urge the committee to sustain the vote of the board.
