Caryn Ann,

I'm copying in the whole LNC confidentially. I heard you are feeling sick today and struggling. Please considering conflict de-escalation with us. We cannot continue the term this way and we both need to be well. We can ask a professional to help us resolve this conflict.

Caryn Ann,

I'm asking you as a former friend and person who also struggles with digestive issues. The constant public and personal attacks are making me physically ill. I've developed another bleeding ulcer. Please stop the public personal attacks.
