Cah,

Your government is full of ambitious rulers, power-hungry bureaucrats, and bloodthirsty maniacs.

And the Libertarian Party is exposing them to the American people through Operation Warhawk Removal.

We are targeting the members of the House and Senate in Washington who continually push us into more and more foreign wars to remove them from office in their next election.

[You can find out more about Operation Warhawk Removal by watching this video. >>>](#)

The Libertarian Party has always been at the forefront of the anti-war movement. But as long as the Warhawks remain in power, we won't be able to influence America's foreign policy AWAY from the military-industrial complex.

Operation Warhawk Removal is our chance to reveal who these politicians are to the American people.
