

Greetings liberty lovers,

I and a majority of your elected board are fighting to stop an attempt to reverse the actions our delegates, representing the members as a whole, took at the past convention in the way of an appeal to the Judicial Committee. The effect of this appeal being successful would be sweeping changes to the makeup of the LPM Executive Committee. It would decimate the board, leaving eight positions vacant including the Chair and First Vice Chair.

[Our detailed response to the appeal can be found linked here, along with all other applicable documentation.](#)

We are confident in our assessment and evidence has been provided to back it up. This evidence includes a report from the parliamentarian for the National Libertarian Party, which largely agrees with our stance. ([Linked here](#)).

We have not taken any steps to prepare for a transition. We believe the Judicial Committee will do what is right and overturn the appeal.

Warm regards,

**Joe Brungardt**
