## THE RESIGNATION: AN UNORTHODOX VIEW

Jerry Tuccille (two-chilly), speaking at his Manhattan campaign headquarters today, called the resignation of Richard M. Nixon "irrelevant."

"Even if all Watergate-style corruption ended with the departure of Mr. Nixon yesterday, it would do nothing to solve the real problems of the American people," said the Free Libertarian Party candidate.

"The number one problem facing Americans today is inflation," Mr. Tuccille continued. "If President Ford simply continues the economic policies of the Nixon administration, no real change will have been wrought."

Mr. Tuccille noted that the Free Libertarian Party, a group of citizens concerned about inflation, is the only party on the ballot that recognizes the root cause of this problem. "The cause is the government's ability to borrow, tax and spend. Our solution? We advocate a drastic reduction in the size and taxing power of government."
