Mr. Chair,

It was astonishing to see that Brian Shields' letter was published on the public list. As the Membership Director for LPNH and Excom member I could spot right away that there were many issues with it. Please send this rebuttal to the public list to correct that wrong.

1. Brian Shields should not have access to our membership lists. This is a violation of the trust placed in LPNH.
2. Our members are now outraged that Mr. Shields is apparently willing to share their private information with the public while simultaneously being firmly set against their interests.
3. Who honestly cares how long these members have been in the party? They're active members of the party. We serve them. Not the other way round. We should be celebrating that they've joined us!
4. The information he shared was inaccurate anyways. While the main membership information is being held hostage by Jilletta currently, I do have a membership list dated this past Friday, which includes members' start dates. **Brian Shields lied about the start dates of numerous the members listed in that email, and redacted the names of long time members. This is continued fraud on his part.**

Here is more accurate information of when there memberships began. You can check it against Civi yourself if you'd like:

~~4/7/2021~~ - Dr. Joshua D Olitzky **Wrong, actually 2019.**

12/23/2020 - Erik Sawyer **Correct, welcome aboard Erik! Also a member of LP National.**

2/9/2021 - Rosa Moura **Correct, welcome aboard Rosa! Also a member of LP National.**

As you look through this list it is important to keep in mind that New Hampshire is the home of the Free State Project ([freestateproject.org](http://freestateproject.org)). Many of these members have recent start dates, because they recently packed up their lives and moved to New Hampshire! If you look at my own start date with LPNH it is listed as 5/15/2017. Before that I was in Wisconsin, whose membership wont appear on the LPNH roll.
