I have become aware that you intend to release a libelous santized report which exposes the Party to legal liability by which means all that approve should be subject to removal.

It still contains libel and I will consider all legal options and I advise you put your E&O carrier on notice that you have received from me a legal cease and desist that a confidential report is a confidential report and I am consulting on libel charges if released.

Now what will eventually be public is anything brought up at a public JC hearing that was relevant to any trial. But before then, you are risking yet another suit. It is YOU violating the rules of confidentiality, not me.

In Liberty,
Caryn Ann
