New York, NY 10019

Dear Mr. Koch:

April was a busy month, with three mass mailings to plan and execute, the New Political Times to order and distribute, and May 14 National Committee meeting in Seattle to prepare for, and ballot drives in several states to work on.

This last item is as important as it is time-consuming and expensive. We have a chance to gain ballot status in 1980 if we petition now, in South Carolina, North Carolina, and Michigan. South Carolina is nearly finished, and they will have ballot status permanently. In Michigan, YLA Co-ordinator Jay Hilgartner has put in a grueling month trying to organize the LP there as well as collecting several thousand signatures himself; it looks as though we'll make the necessary number, but barely. North Carolina will require a similar effort.

Clearly, however, our 1976 experience dictates that we must get as many states as possible with LP ballot status before the 1980 campaign begins. (We could have six or eight in this category by the end of this year if all goes well.) So, obviously, successful petition drives and campaigns are among our top priorities in 1978, and will make for an active year.

Best regards,

Chris Hocker  
National Director
