2. Two of our county commissioner races are in Park and Lake counties. The total number of 18 to 24 year old voters in those two counties is 1074. The cost to mail a postcard to these voters is about \$380.00. David Aitken has volunteered to pay for the printing of these postcards. The message on the postcard will be:

“Hi There!

Have you heard about the Libertarian Party? The Libertarian Party is the only real third party choice in all 50 states. The local level is where you can make a real difference and we have candidates in your county who want to earn your vote. We also have the only good choice for president, Dr. Jo Jorgensen. For more information visit **LPcolorado.org** and **JO20.com**. Or try the World’s Smallest Political Quiz at **theadvocates.org**.

Thank you,

Victoria Reynolds, State Chairman
Libertarian Party of Colorado”

If the board is interested in mailing these postcards to young voters in Park and Lake counties, board members will need to move and second the expenditure of \$380 for this purpose. This may also be a test of whether young people can be attracted to this party by this method. There are about 340,000 voters age 18-24 in Colorado.
